

To Our Friends & Family:

Our residents and staff appreciate the time you spend with your family member and friends in our center; however due to the recent COVID19 activity within the state of _____, the CDC and CMS have recommended that visitors be limited to essential visitors only—which at this time are limited to service providers.

In an effort to prevent the spread of COVID19 to our community, we are adhering to these recommendations and are not allowing visitors in our center until further notice.

We will make every effort to provide a means of communication with your loved one and will share that information with you as it becomes available (e.g., telephone, Skype, FaceTime, etc.). This will allow you to communicate directly with your loved one without increasing the risk of infection spread.

If you should have any questions, please contact _____ at _____.

Thank you for your understanding. Stay well!
