

Personal Protective Equipment COVID-19 Observational Audit Data Tracking Tool and User Guide

The Personal Protective Equipment COVID-19 Observational Audit Data Tracking Tool and User Guide help nursing homes identify performance patterns and target improvement more readily with an analytic tool to compile personal protective equipment (PPE) audit data.

- Personal Protective Equipment (PPE) COVID-19 Observational Audit Tracking Tool.
This pre-programmed Excel workbook compiles PPE audit data by individual, shift, position, location, and department, to help staff regularly review opportunities for improvement in donning and removing PPE.
- Personal Protective Equipment (PPE) COVID-19 Observational Tracking Tool User Guide.
This guide for nursing home staff provides detailed, step-by-step instructions with visuals to record, analyze, and review observational audit data using the Personal Protective Equipment (PPE) COVID-19 Observational Audit Tracking Tool.
